

PCF MAINTENANCE BV / PCF ASIA BV

Recently PCF Maintenance bv has installed a new PCF Dryerfabric cleaner with great success at Smurfit Kappa Roermond Paper PM 3, The Netherlands.

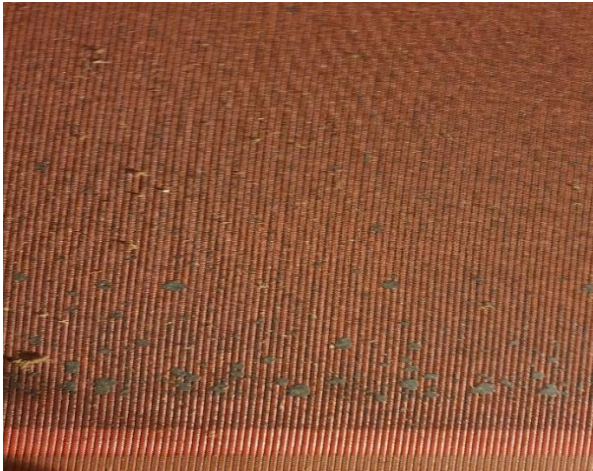

PCF DRYERFABRIC CLEANER INSTALLED ON TENSIONER

Papermachine Parameters

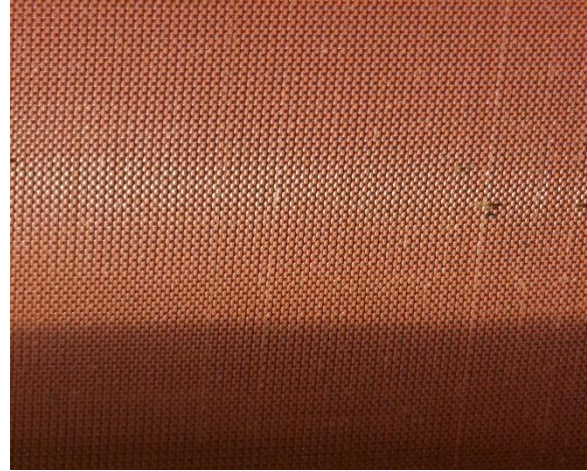

- Brand paper machine: Beloit
- Paper machine width: 5700 mm
- Paper machine speed: 850 m/min.
- Grammages: 100-175 gr/m²
- Parameters of paper : fluting/testliner
- Raw material: 100% recycled paper

Please also watch the movies for the PCF Dryerfabric cleaner in action (on request).

Dirty dryerfabric without PCF DF Cleaner

Clean dryerfabric with PCF DF Cleaner

Advantages:

- Increasing CFM value
- Less breaks because of clean dryerfabrics
- Increasing paper quality
- Less contaminants on rolls and dryercylinders
- Decreasing cleaning shut downs and dryerfabric cleaning time
- Increasing production efficiency
- Increasing lifetime of the dryerfabrics

If you are interested in learning more about our PCF dryerfabric cleaner, or any of our other PCF cleaning and cutting devices for paper and board Industry, please fill out our quotation questionnaire or contact:
